Dear Sir:

Applicants are in receipt of the "Notice to Comply with Requirements for Patent Applications Containing Nucleotide Sequence and/or Amino Acid Sequence Disclosures" mailed 10 August 2004 from the OIPE division of the U.S. Patent and Trademark Office. Applicants believe this Notice was sent in error.

In consideration that Applicants previously received a "Notice to Comply with Requirements for Patent Applications Containing Nucleotide Sequence and/or Amino Acid Sequence Disclosures" (mailed 02 February 2004) and, in response, Applicants filed a Preliminary Amendment with a Request for Transfer of Computer Readable Form of Sequence Listing on 02 April 2004, Applicants were unclear why a second "Notice to Comply with Requirements for Patent Applications Containing Nucleotide Sequence and/or Amino Acid Sequence Disclosures" was mailed on 10 August 2004.

Applicants' Representatives contacted Ms. Anne-Marie Corrigan (ph: 571-272-2501) of the STIC System Branch for further clarification. Ms. Corrigan reviewed the case and found that, on 18 May 2004, the OIPE sent the STIC division a transfer statement that authorized the transfer of the sequence listing from the parent case (U.S. Serial No. 09/269,954; issued as U.S. Patent No. 6,664,369 B1 on 16 December 2003) to the instant application. This authorization was processed on 19 May 2004 and there were no errors reported in the Sequence Listing.

In consideration thereof, Ms. Corrigan confirmed that the "Notice to Comply with Requirements for Patent Applications Containing Nucleotide Sequence and/or Amino Acid Sequence Disclosures" mailed 10 August 2004 was sent in error and no further response is necessary.

Please contact the undersigned attorney with any questions regarding this matter.
